

# Rapid Test (RT) – Molecular and Antigen

- No evidence of SARS-CoV-2
- SARS-CoV-2 detected
- Confirmation PCR test required

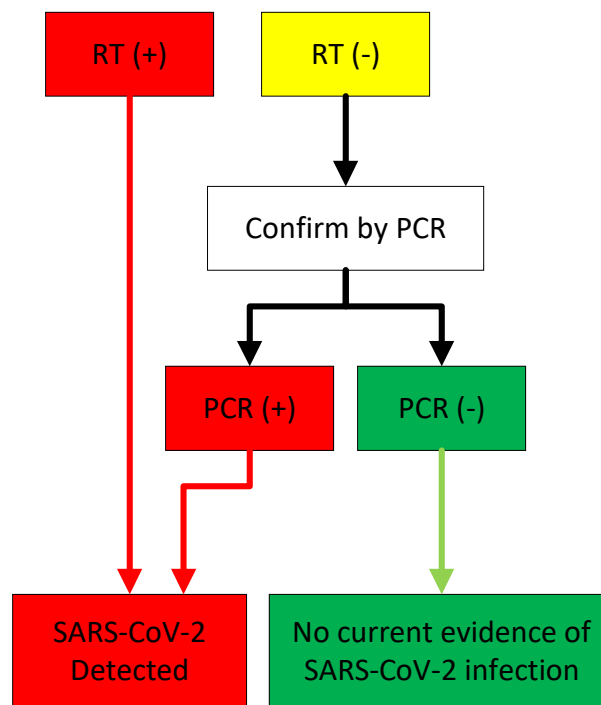

Screening Programs

Asymptomatic individual without known exposure to COVID-19.

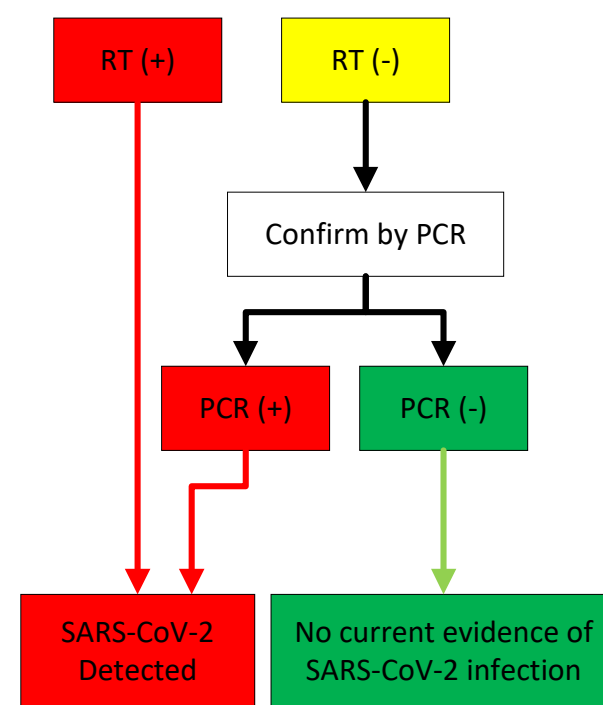

AHS Programs, or Outbreak Settings under Guidance of Public Health Officials

Symptomatic individual\*

Asymptomatic individual with known exposure to COVID-19\* (close contact to a positive case)

\* People with symptoms or who have known exposure to COVID-19 should be tested through Alberta Health Services (AHS) unless absolutely necessary, such as in a remote worksite authorized by AHS to perform COVID-19 testing. They must also follow all mandated isolation or quarantine requirements.
